Customer's Canvas by Aurigma attains Microsoft Gold Partner status

Customer's Canvas by Aurigma has achieved Gold-Certified status in the Microsoft partner program. Microsoft has recognized Aurigma for accumulating the required expertise and competence for delivering Microsoft Cloud solutions and services. The company's developers have successfully passed exams and confirmed their deep knowledge in the field of Microsoft technologies.

Companies with Gold-Certified status have established working relationships with the corporation and demonstrate a high level of knowledge and expertise in Microsoft technologies.

Microsoft Gold-Certified partners gain access to the latest Microsoft technology products and services as well as ongoing support and training. Microsoft partners obtain industry-leading capabilities to deploy Microsoft business solutions that empower them to better serve customers.

"We are honored to have received Microsoft Gold-Certified Partner status. We appreciate Microsoft for recognizing the professionalism of our team," says Dmitry Sevostyanov, CEO at Customer's Canvas by Aurigma, Inc. "We are particularly proud of the high marks for our competencies in the field of developing cloud solutions for the Microsoft Azure platform. This vindicates our team's ability to build scalable and fault-tolerant solutions for our customers."

Companies with Gold-Certified status are part of the Microsoft Partner Network. Microsoft organizes an extensive compliance verification process for its partners before they can achieve the elite status of a Gold-Certified Partner.

Customer's Canvas by Aurigma, Inc. is a vendor of image composition, design personalization, and prepress automation software for print service providers and marketing companies. Their flagship product - Customer's Canvas Web-to-print SDK – is designed to streamline the creation of personalized designs online. This solution integrates into any existing or new website, allowing companies to build ordering workflows for print and packaging products of virtually any complexity.
